

## Capel Descent Results

A **huge thanks** to all volunteers, competitors and spectators for such a fantastic day. We were a little worried with the revised race format, but most people seemed to have a good time. It was certainly much more interesting from a spectator standpoint with competitors passing a couple of times.

We will have a **survey** coming out in the next couple of days, so we'd welcome any feedback good or bad.

**Special Notice:** We only found out after presentations (thanks to a couple of competitors querying times) that several short course paddlers did not get the 10 minutes automatically taken off their time. From what we can tell, this has affected 4 online registrations and 5 on the day entries. We've double checked against our manual timing and hopefully it's now sorted. If you are listed here as a winner and you did not get a trophy, please email me on [peter@capeldescent.com](mailto:peter@capeldescent.com) and I will get that in the mail as soon as we can. We apologise for the confusion this may have created. We also apologise for not having all the trophies on hand. When we ordered them, there were only 29 entries and we actually ordered spares. We had an unexpected (but very welcome) increase in numbers in the last few days of the week.
